

# 2016 - Present

§ The role of the AOP Assistant Director is an internal designation. It is held by the Director/Assistant Director with the most capacity and serves to provide oversight in the absence of the Director of AOP. Its authority is limited to matters of the unit as a whole and is primarily for signatory backup. Individual program issues continue to be handled by the Director or Asst. Director of each project.

\* The Program Coordinator is a 100% position split between the McNair Scholars Program and LSAMP.
